Email Feedback from A Hughes regarding the above complaints:

21/8/23 17:32 *There is no visible smoke from the chimney I have just taken the pictures at the times sent to my email. I have was also in the village at about 1600hrs and have no issues to report. The boiler is evidently burning clean .*

The factory has been shut down since Sat and will not be starting up until later this evening.

22/8/23 08:18 *We have completed deep cleaning of all drains and sumps*

22/8/23 15:23 *We have looked into this mater and can not see any issues with plant or mechanical operations its is quite windy today which affects the smell from vehicles and temperatures are on the warm side which is also affects material.*

We have continued to move any odorous trailers to high priority processing however the factory has very little material in at the moment.

22/8/23 15:49 *We have had a muti collection lorry in which has been round several farms over recent days carrying out multiply collections at farmers sites which odorous.*
